- **An Exhibition Plus consultation project 2013**
- **Heritage Lottery successful £1.5 million Round 1 Application**
- **Now working up to next stage**

Working with the a space team, developing the successful £1.5 million first round HLF application for this Southampton grade 1 listed building and ancient monument.

The building was a cornerstone to old Southampton's defence, then a town gaol, mortuary and site of lost the Albert sculpture and till recently the Museum of Archaeology. The proposal aims to revitalise the Old Town, become a destination on the Wall Walk and a new arts, music and interpretation complex.

The sea once lapped against the cities town walls - now mostly lost in a sea of urban development. **This proposal will return the sea to visitors of Southampton's Old Town.**

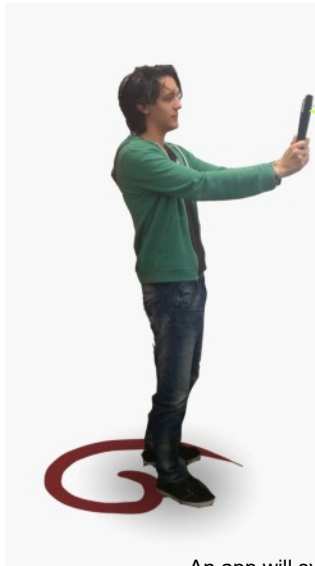

The proposal will reveal the old tidal flow
